

CSoNet 2025: The 14th International Conference on Computational Data and Social Networks

<https://csonet-conf.github.io>

December 14–16, 2025

Vietnam-Korea University of Information and Communication Technology, Danang, Vietnam

Important Dates:

- ~~June 30, 2025~~ Updated: September 1, 2025
- Acceptance Notification: September 21, 2025
- Camera Ready & Registration: October 10, 2025
- Conference Dates: December 14–16, 2025

Call for Papers:

CSoNet 2025 offers a premier forum for researchers and practitioners in big data networks, network science, security, privacy, and deep learning. The conference welcomes theoretical, methodological, empirical, and experimental works on all aspects of network-based data analysis.

Accepted papers will appear in **Springer's LNCS**, indexed in Web of Science (CPCI-S), EI Compendex, ACM DL, DBLP, Google Scholar, and more. Selected extended papers will be invited to *Journal of Combinatorial Optimization* and *Applied Network Science*.

Topics of Interest (not limited to):

- Deep Learning on Graphs
- Complex Network Analysis
- NLP for Network Analysis
- Network Representation Learning
- Big Data Analysis
- Large Language Models
- Mathematical Modeling
- Network Dynamics Optimization
- Network Architecture Design
- Information Diffusion
- Network Security & Privacy
- Scalable Algorithms
- Trust in Social Media
- Mobile Network Efficiency
- Social Media Marketing
- Stock Prediction
- Multidimensional Graphs
- Fairness in Graph Mining

Submission Guidelines:

Submissions must follow LNCS format. Papers must be original and unpublished. Page limits: 12 (regular), 6 (short), 2 (abstract). Submission link: <https://meteor.springer.com/CSoNet2025>

Organizing Committee:

General Co-Chairs

Minming Li, City University of Hong Kong

Feng Xia, RMIT University

Huynh Cong Phap, Vietnam - Korea University of Information and Communication Technology

TPC Co-Chairs

Alexander Semenov, University of Florida

Tianbao Yang, Texas A&M University

Anurag Singh, National Institute of Technology Delhi

Tran The Son, Vietnam - Korea University of Information and Communication Technology

Workshop Chair

Yi Xu, Dalian University of Technology

Publicity Chair

Neng Fan, University of Arizona

Tutorial Chair

Artem Prokhorov, University of Sydney

Web Chair

Quan M. Nguyen, University of Florida

Steering Committee

My T. Thai, University of Florida

Kim-Kwang Raymond Choo, UT San Antonio

Sabrina Gaito, University of Milan

Weili Wu, UT Dallas

Zhi-Li Zhang, University of Minnesota
